100 places that will change your child's life from your backyard to the ends of the earth The endeavor to use 100% renewable energy for electricity, heating/cooling and transport is motivated by global warming, pollution and other environmental issues, as well as economic and energy security concerns. Shifting the total global primary energy supply to renewable sources requires a transition of the energy system. In 2013 the Intergovernmental Panel on Climate Change said that there ...

100 places that will change your child's life from your backyard to the ends of the earth Our world is changing
faster than anyone predicted. Already, freshwater supplies are shrinking, agricultural yields are dropping, our
forests are burning, and rising oceans are more acidic—all, in part, due to a warming climate. As our natural
world changes around us, so does our way of life. Coastal home values drop as insurance premiums rise;
drought reduces feed for American farmers ...
