The communication system is supplied by the firmware of a 78F053x microcontroller via a standard UART Interface. The TPUART was developed to relieve the microcontroller of the bit coding and decoding duty on the one hand and to allow the coupling to KNX through different microcontrollers on the other hand.

The key is to use products and techniques that minimize irritation. One good guide: look for products that are noted as appropriate for sensitive skin or skin with rosacea â€” and avoid any products that sting, burn or cause irritation.
