the tent on the beach and others part 4 from volume iv the works of whittier An oxygen tent consists of a canopy placed over the head and shoulders, or over the entire body of a patient to provide oxygen at a higher level than normal. Some devices cover only a part of the face. Oxygen tents are sometimes confused with altitude tents as used by athletes and those looking to acclimatize to a higher altitude, but those contain a reduced oxygen content.

the tent on the beach and others part 4 from volume iv the works of whittier A bell tent is a human shelter for inhabiting, traveling or leisure. The design is a simple structure, supported by a single central pole, covered with cotton canvas. The stability of the tent is reinforced with tension by guy ropes connected around the top of the walls and being held down by pegs around the circumference to the ground. It has a circular floor plan of some 10 ft and larger.
